### About The Technology Partnership (TTP)

TTP, was established over 25 years ago to create a world-leading technology and development organisation. Today that enterprise has evolved and grown into TTP Group, with TTP at its core.

New companies have been created, some have remained within TTP Group, while others have gone on to become successful independent businesses.

Our visit will cover R&D and manufacture in a number of product areas, including Labtech, Tonejet and DiscPump.
